Since last year's Tacky Hat contest seemed to be a big hit, we have a new challenge for this year. It will require woodworking, decorating and designing abilities. We want you to bring a birdhouse you have built and painted. They need to be usable/functional/long lasting for the birds and for the yard!

You must make your own. No pre-fab kits. You are welcome to use any patterns you want to....just as long as it is cut out by you (or a friend).

The sky is the limit with ideas on this! It can be as simple or ornate as you want. There is no limit on size.

Of course the prize is one daylily per winning house!!!
